# IACD

In partnership with

**iStore EDUCATION**

## Who are we?

The IACD is a division of The Core Group which is the sole distributor of Apple products in Sub-Saharan Africa and is the owner of all the iStores and through various channels is responsible for the distribution of Nintendo, Fitbit and other premium brands.

The IACD is a training centre that has partnered with some of South Africa's leading companies to provide employment opportunities to eligible candidates that

## What is iOS app development?

It is the process of making mobile applications for Apple hardware including, iPhone, iPad and iPod. The software is written in the SWIFT programming language and then deployed to the app store for users to download.

## Our offering
**iOS App Development**

**training** for those who want to successfully launch their career in iOS app development. Our past delegates are working as: **Software Engineers** and/or **iOS Developers** at various organisations.

## What are we looking for?

- Matric or NQF level 4 equivalent
- A diploma or degree in Information Technology or any other related field. Students need to have completed their undergraduate qualification by the end of 2022.
- A solid academic background with preference for students with an average of 60% and above.
- A love for tech and an eagerness to learn.
